

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

FRANK BILLINGS      F. G. NOVY

W. T. SEDGWICK

Volume 9

1911

Chicago, 1911

Composed and Printed By  
The University of Chicago Press  
Chicago, Illinois, U.S.A.

## TABLE OF CONTENTS.

### NO. 1, JULY, 1911.

A New Stain for Bacterial Capsules with Special Reference to Pneumococci ( <i>with Plate 1</i> )	1-8
<i>E. C. Rosenow</i> - - - - -	
The Problem of Transmission in Typhus Fever	9-101
<i>Russell M. Wilder</i> - - - - -	

### NO. 2, SEPTEMBER, 1911.

On the Local Production of Antibodies	103-114
<i>Ludvig Hektoen</i> - - - - -	
The Resistance of Tubercle Bacilli to Dry Heat	115-116
<i>Charles Krumwiede, Jr.</i> - - - - -	
The Effect on the Protoplasm of Nitella of Various Chemical Sub- stances and Microorganisms Introduced into the Cavity of the Living Cell	117-129
<i>M. A. Barber</i> - - - - -	
Further Studies of Antistreptococcus Serum	130-146
<i>George H. Weaver and Ruth Tunnicliff</i> - - - - -	
Studies of the Chemistry of Anaphylaxis (III). Experiments with Isolated Proteins, Especially Those of the Hen's Egg	147-171
<i>H. Gideon Wells</i> - - - - -	
The Bactericidal Action of Quinone and Other Phenol Oxidation Products as Determined by the Rideal-Walker Method	172-180
<i>William Thalhimer and Barton Palmer</i> - - - - -	
A Comparison of the Bactericidal Action of Quinone with That of Some of the Commoner Disinfectants	181-189
<i>William Thalhimer and Barton Palmer</i> - - - - -	
Pneumococcus Anaphylaxis and Immunity	190-211
<i>E. C. Rosenow</i> - - - - -	

### NO. 3, NOVEMBER, 1911.

Further Observations on the Complement Fixation Test in the Diag- nosis of Lues in the Military Service: An Analysis of 3,950 Tests	213-228
<i>Charles F. Craig</i> - - - - -	

The Effect of Specific Vaccines on Rat Typhoid	
<i>Edna Steinhardt and Thomas Flourney</i> - - - - -	229-236
Secondary Infection in Pulmonary Tuberculosis. The Recovery of the Streptococcus and Pneumococcus from the Blood	
<i>Roswell T. Pettit</i> - - - - -	237-250
Infection by the Gas Bacillus in Coal-Mines	
<i>Oskar Klotz and W. L. Holman</i> - - - - -	251-264
The Cleaning Efficiency or Sanitary Value of Vacuum Cleaners	
<i>W. D. Frost and Vermillion Armstrong</i> - - - - -	265-275
Susceptibility of Certain Domestic Animals to Plague Infection with Particular Reference to That of Ground Squirrel Origin	
<i>George W. McCoy and Charles W. Chapin</i> - - - - -	276-281
On the Nature of Proteolytic Substances in the Blood	
<i>George F. Dick</i> - - - - -	282-286
The Comparative Virulence of the Pneumococcus in the Sputum of Lobar Pneumonia at Various Stages of the Disease with Special Reference to Crisis	
<i>John Arthur Luetscher</i> - - - - -	287-323
Some Observations on the Blood of Dairy Cows in Tick-Infested Regions	
<i>R. P. Hibbard and D. C. Neal</i> - - - - -	324-342
The Interpretation of Tests for <i>B. coli communis</i>	
<i>William R. Copeland and Chas. P. Hoover</i> - - - - -	343-349
Experimental Immunity with Reference to the Leprosy Bacillus.	
Part II. A Study of the Factors Determining the Cure of Individuals Infected by the <i>B. leprae</i>	
<i>Charles W. Duval, Frazer B. Gurd, and Ralph Hopkins</i> - - -	350-365
Specific Antibodies in Scarlet Fever	
<i>Karl K. Koessler and Jessie M. Koessler</i> - - - - -	366-379
On the Relation of Illuminating Gas to Public Health	
<i>W. T. Sedgwick and F. Schneider, Jr.</i> - - - - -	380-409
The Mankato Typhoid Fever Epidemic of 1908	
<i>H. M. Bracken, F. H. Bass, F. F. Wesbrook, H. A. Whittaker, and H. W. Hill</i> - - - - -	410-474
